

NEW AND

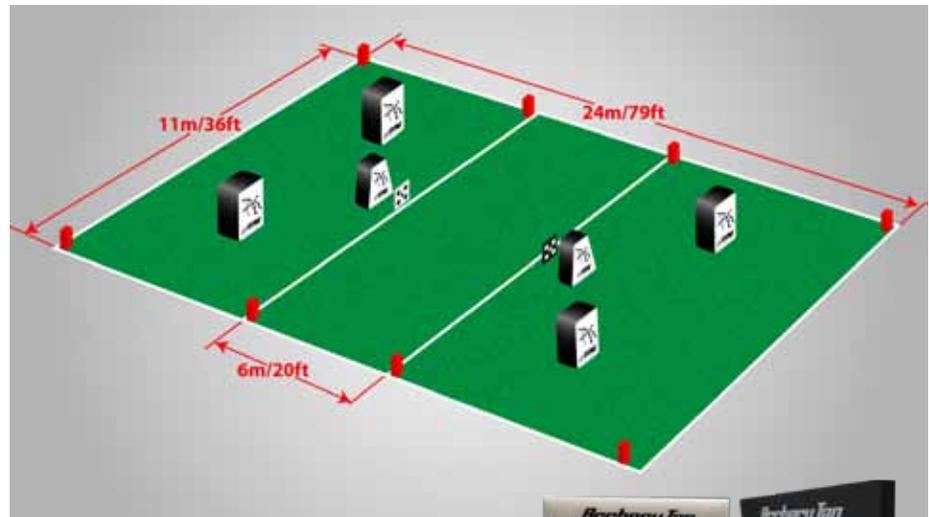

The most fun you will have
with a bow and arrow.

EXTREME FUN

The game is played like dodgeball, with two teams consisting of five players each playing opposite one another, separated by a "safe zone" (see diagram below). Each team also has what we call a "5-Spot Knockout Target." There are two objectives: 1) to tag the opponents, and 2) to knock out the five discs of the opposing team's target. You eliminate a player by tagging him or her with an arrow, or by catching his or her arrow. The 5-Spot Targets work to save a "life" of one of the players. A "tagged" player can be called back into the game when a target spot is knocked out or when a teammate catches an arrow.

Playing:

- Games consist of 5 players per side during game play.
- The field is setup as in the picture (at right).
- A safe zone of 6 meters (20 feet) separates each team.
- Each player starts with 2 arrows.
- Games vary from 5 to 10 minutes.

Winning:

- Tag out all opposing players, *or*
- Have the most players remaining in the game when time expires.

Our Licensees are expected to follow our guidelines and to keep the Archery Tag® experience consistent throughout the world. Other forms of game play are not sanctioned by Archery Tag® headquarters.

5-Spot Knockout Targets
